

# How many herbicides does it take to change a lightbulb?

DAVID THORNBY

INNOKAS INTELLECTUAL SERVICES

A lightbulb...

An evolution-proof system?

A resistance-proof farm?

The question is: how many herbicides are you willing to have in the shed?

*This is diversity.*

# Some things we know:

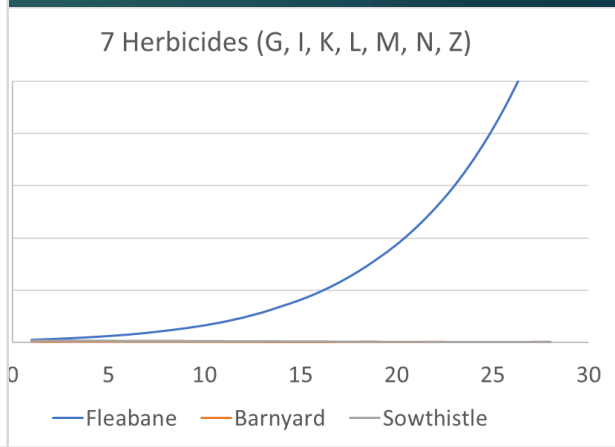

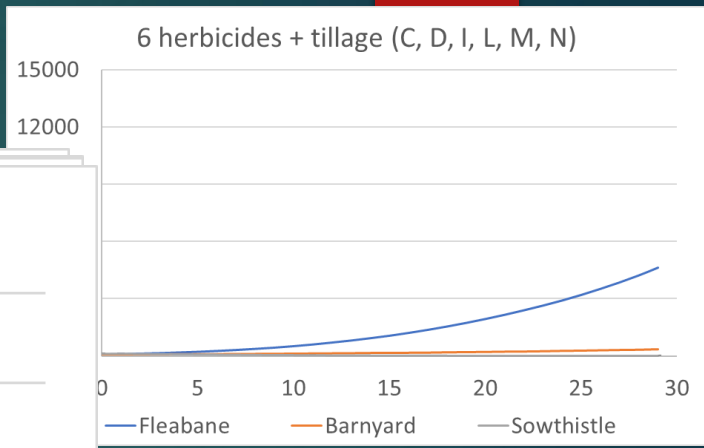

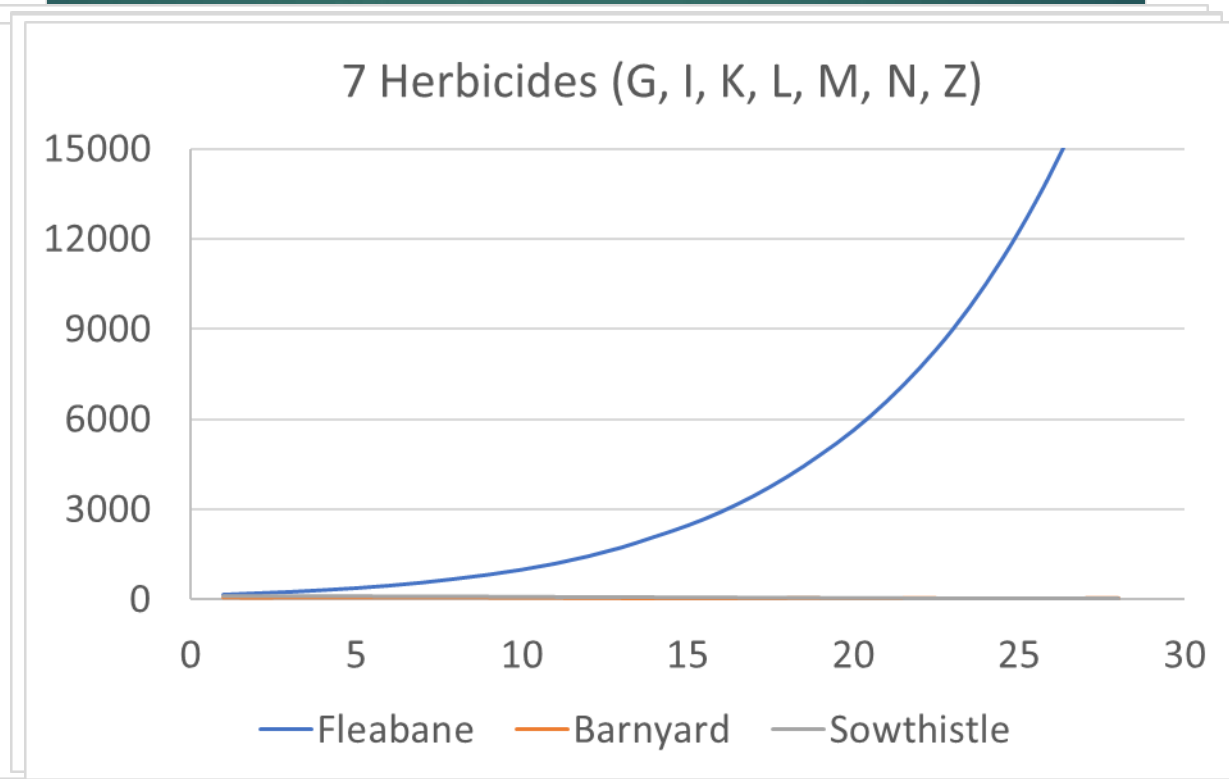

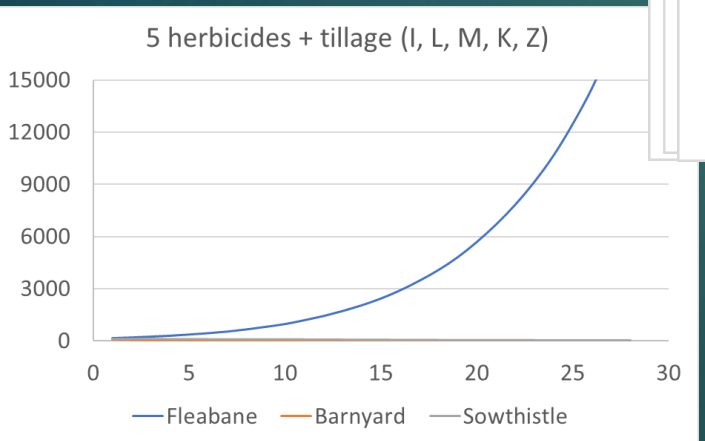

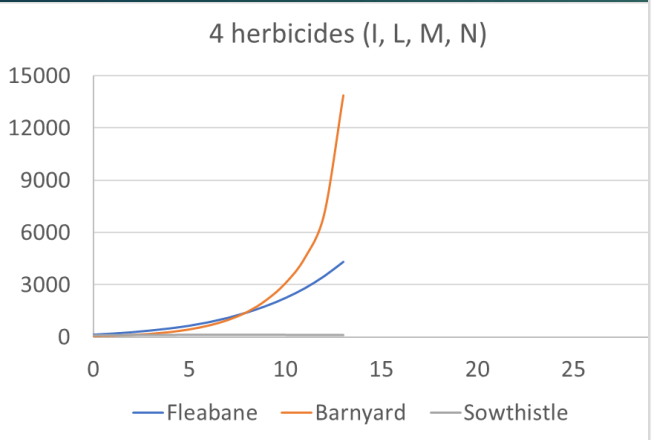

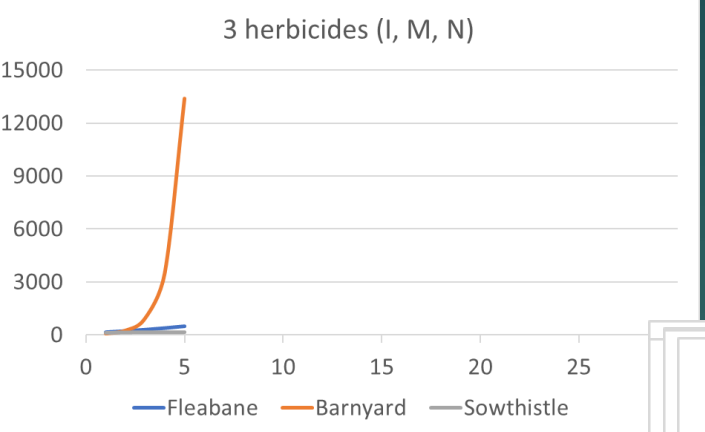

*One herbicide is not enough*

*Australian cotton has options*

*Some tactics are better than others*

*Money, time, space, equipment are all limited*

# Results from The Diversity Model

**CRDC**
